

Dibble's Bridge

Climbs - 11

Altitude

220m

Faces West

**Other
condition
info:**

A compact wall of quarried limestone that has had plenty of time to weather. There are a

small number of good problems reaching a height of 5m with flat grassy landings.

Parking and approach info:

The road is very wide just east of Dibles Bridge on the B6265 providing easy parking on its northern side. Please don't block the gate. A gate on the south side gives easy access to the rocks (2 minutes) that lie above a grassy area and just above the stream. Not on access land but on a public footpath. **Please respect the peace and quiet of local residents and keep noise to a minimum.**

The Main Wall is obvious. There are a number of other rocky areas above and around to the right though none prove satisfactory. An easy wall is left of the main wall.

Dibble's Bridge

Easy Wall

1/ **The Crack** Font 2
The crack.

2/ **The Wall** Font 2
The narrow wall avoiding the cracks.

Main Wall

***All problems standing and sitting begin with footholds near ground level.**

1/ **Officer Dibble** Font 6c
SDS LH Low undercut, RH Slot/crimp. Pull left to good hold on left edge (difficult to avoid blocks for feet).then back right and up past a tree.

2/ **Top Cat** Font 6b **

Start LH Slot or low undercut RH undercut in obvious line. Gain break and up past hole.

Two sitters cover pretty much the same ground

2a/ **TLC** Font 7a+ *

SDS. From matched in the finger break reach a tiny crimp high left. Sort feet and go for the break and up.

2b/ **TC** 7a+ *

SDS with both hands in the low thin break, pull on and utilise a high right foot, pockety layaway and good left toe-hook to hit the break and up

3/ **The Long Hot Winter**

Font 6a+ **

LH undercut,RH in square slot. Climb direct passing the break and tricky wall above to left side of the obvious hole.

3a/ **Bin Living**

Font 7a+ *

A SDS using the low diagonal undercut and a mono to go for RH in the square slot then as above.

4/ **Benny the Ball** Font 6a *

LH in square slot, RH little slot/crimp just right. Gain the break. A long reach gains a good hold. Continue past the hole.

5/ **Fancy Fancy** Font 5

Use a big RH layaway to gain the break then follow the thin crack to the top.

6/ **Spook** Font 3

Corner crack and pass the tree.

7/ **Choo Choo** Font 6a+

SDS. Pull past the breaks.

8/ **Hawaii Here We Come**

Font 5 **

Traverse the break from R to L.

Best to finish up Fancy Fancy.
