

Crookstones: North Boulder

A small addition to Crookstones (AKA Hellifield). Approach as for that crag from the Rylstone direction until you are descending to Waterfall Gill. As you descend, the wall on the right ends and becomes a wire fence. Hop over carefully here and the boulder is a few metres away.

The boulder is south facing, so is a brighter spot than the boulders at the main crag. A good place to warm up before heading over the water.

The grades are probably complete nonsense.

1\ Jailbreak F5

The left arete climbed direct on its left.

2\ Freedom F4

Start at the left arete and trend right.

3\ Scoop Swoop Loop-De-Loop F4 *

The scoop in the middle direct. Pleasant.

4\ Unlimited F5

The wall between the scoop and arete.

5\ The Runnels F5 *

Enter the runneled arete from the left via a lovely rock over.

6\ Rib Rouser F5+

SDS on the block and slap up the rib.

7\ Covid Crack F6B+ *

SDS and climb the left edge of the crack, moving left to join *Rib Rouser*. The block on the right is out.

8\ The Scrittle Life F5

From the horizontal break, catch the big flake and top out
