Nautilus Beach, Skala
Kefalonia

Idyllic beach bouldering, just North of Skala. The wall described is solid and ends in a ledge that can be walked off - the great landing is made of dry seaweed. Be amazed at the 'Hollywood Bowl' type cave and dream of sporting possibilities.

Approach: Take the coast road out of Skala in the direction of Poros. The Nautilus Restaurant is a good refence point - park in the layby just north of this. Walk up the road for a few metres before taking one of several tracks down to some concrete steps. The problems are just left of these on the edge of the big cave.

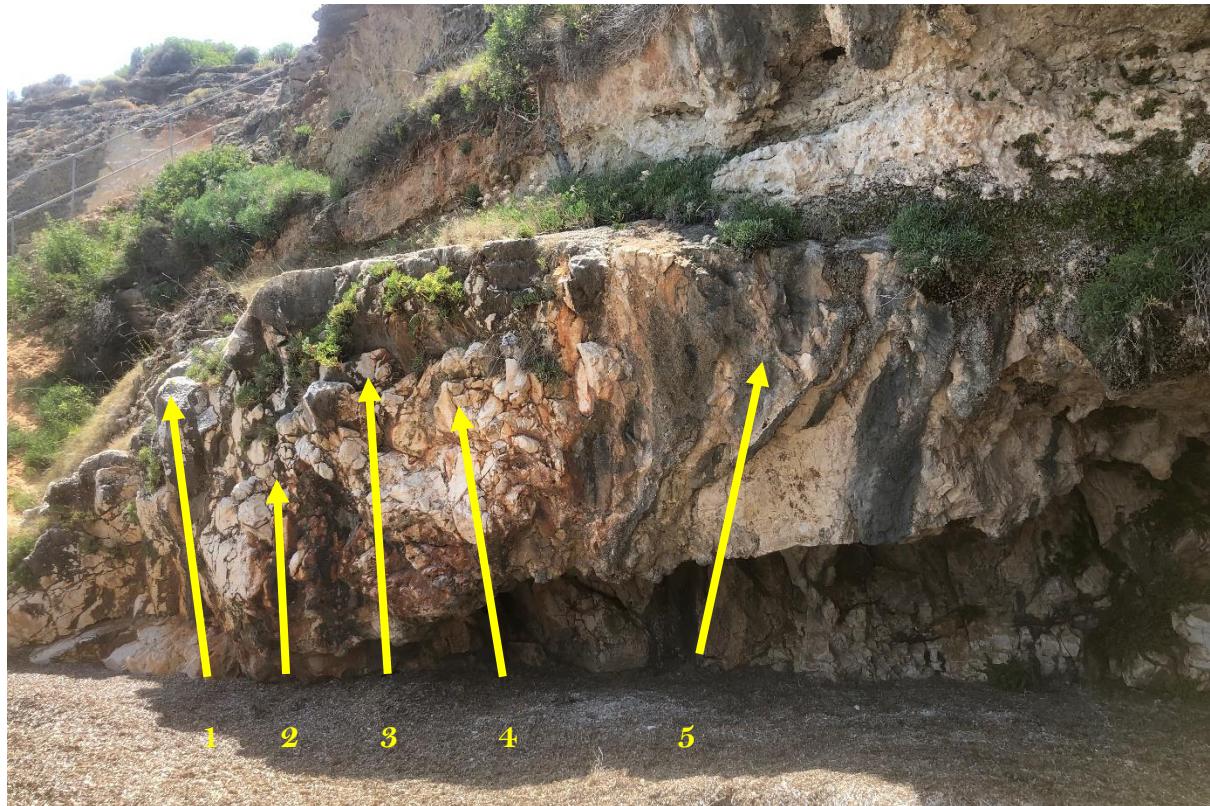

1 **Protos Toichos** 5 Sit start. Climb the little wall.

2 **Tzamer** 5+ Sit start. Jam the crack between the first wall and the ledge.

3 **Pervazi** 6a+ * Sit start. Hang the low ledge and burl up.

4 **Nautilus Roof** 6c+/7a ** Start deep under the roof with feet on the back wall. Power out off undercuts and fight up the wall.

5 *Project* Climb the tufa from standing. The top needs digging off. A sit version would be futuristic.
