

Two mini West facing bays in the little dry valley below the bolted routes.

Approach: Park at Langscar Gate (///sulk.expired.eclipses). Walk down the field and cross the Watlowes path to Malham Cove. The walls are just below the path on the right – it is an easy scramble down (///turntable.sorters.workshops). SD 892648

All sit starts. Some can top out but touching the top solid holds and climbing / dropping back down works best. Take care with the tops – these have not been dug out as the good rock stops before the grassy bit (and it preserves the look of this popular walking area).

The wall starts with a very short bit on the left (the traverse ends on this).

1 Mickle End 4 Sit start. The easy little wall.

2 Slit 6a A strict eliminate up the block with the vertical slit. Start sat with a low left hand and your right in the slit.

3 First Pillar 5 Sit start. Up the crosseley pillar.

4 Second Pillar 5 Sit start. The next pillar.

5 Big Gap 5+ Sit and undercut to win the big gap. Touch the highest holds to finish.

6 Mossy Crack 5+ The middle mossy crack from a sitter.

Malhamdale Bouldering

7 King Under The Path 6a+ The right of the in-cut bay without the mossy crack or the sidewall on the right. Use a low lefthand pinch and a righthand undercut to make the stand. Gain a small hold in the crack before pinching the flake (there is a good in-cut halfway up).

8 Under Path 5 Layback up the corner crack from a sitter.

9 Pedestal 4+ Start on the pedestal. Climb left from this.

10 Under Path Traverse 6a Traverse across the whole wall from a sit on the pedestal to the low rocks at the left hand end.

The little jutting bit in the middle.

A Narrows 4+ Sit the wall beside the pedestal.

B Snake Head 5 Sit the nose direct and grapple over.

C Side 5 A very short one. Sit under the roof.

D Depths 5 Out of the corner from a sit.

E Jugnspike 4 Sit start. Jugs and a spike just left of centre.

F Middle Jugs 4 Sit and go.

G Newt 'Ed 6a An eliminate up the nose. Start sat on the boulder. *Photo below; has been done straight on too.*

H Fins & Fings 3+ Sit start and bowl up everything at the end.

All originally done 15th March 2025; revised 5th September 2026.
